### **DETAILED ACTION**

1. The response to the restriction requirement filed on March 22, 2005 has been entered. Applicant's request for reconsideration of the restriction requirement has been found persuasive and, therefore, the restriction requirement mailed on February 17, 2005 has been withdrawn. New election/restriction requirement is as follows.

#### ***Election/Restrictions***

2. As best understanding, this application contains claims directed to the following patentably distinct species of the claimed invention:

Species I     Figures 1, 5B and 9

Species II    Figures 2A- 2C, Figure 3A-3C and 5A

Species III   Figure 4A, 6 and 10

Species IV   Figures 4B and 8

Species V    Figures 4C and 7

Species VI   Figure 11

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. None of the claims is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

Art Unit: 2875

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. A telephone call was made to Mr. James E. Walton on February 15, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

***Response to Applicant's Arguments***

5. Applicant's arguments filed on March 22, 2005 with respect to the election/restriction requirement have been fully considered but they are moot in view of withdrawal of the requirements mailed on February 17, 2005.

***Conclusion***
